

# National Flu Summit 2011 Workplace Flu Prevention Working Group

Roslyn Stone, MPH  
Chief Operating Officer  
Corporate Wellness, Inc.

May 9, 2011

## Today's Discussion

No two flu seasons are ever alike...

- What did workplace flu prevention look like in 2009
- How it compared to 2010
- What we're expecting for 2011

No two flu seasons.....

- Late delivery
- Recalls
- Pandemic concerns

are ever alike.....

## Who is the Workplace Flu Prevention Working Group?

- Large and small employers
- Occupational health providers

All provide flu vaccinations to employees

## Workplace Flu Prevention 2009: Pandemic Preparedness

- ✓ More companies offered flu shots to employees
- ✓ More employees participated
- ✓ Increased workplace-based flu education

## Top Challenges for Workplace Flu Prevention in 2010:

### The Economy

Fewer employees

Less money to spend

Almost no companies offered flu  
shots for first time

## Top Challenges for Workplace Flu Prevention in 2010:

### Moderate flu season

Fewer people sick

Reduced media coverage

## What to expect for 2011?

So far, so good....

Early activity in terms of RFPs  
and inquiries appears  
improved from last season
