The New Adult Vaccination Resources Library (AVRL)

National Adult & Influenza Immunization Summit
May 14, 2013

Laurel Wood
Immunization Action Coalition

Is asthma a contraindication for zoster vaccine?
How do I increase adult coverage rates in my clinic?
What are the S&H req’ts for HPV vaccine?
Is there a good handout about Tdap recommendations for grandparents?
Are there online training videos for my office staff?

Where can I find good handouts in Spanish?
When should I use PCV13 vaccine in an adult?
Which vaccines should a pregnant woman receive?
About 1,570,000 results
Although many wonderful resources are available to assist adult immunization providers, it can be challenging to locate the best information to meet specific needs. The resource listing on the following pages was developed by the Immunization Action Coalition (IAC) for presentation at the 1st National Adult Immunization Summit held in Atlanta on May 15–16, 2012. This listing is the initial step in the development of a searchable database on IAC’s website, www.immunize.org. In the interim, providers may find this online list to be helpful. This information will continue to be updated as new resources are identified.
Limitations of paper-based listing

Inability to:

- edit
- keep updated
- “automatically” select for keywords
- combine multiple search criteria
Step 1: Select Search Criteria

- Specify who is vaccinated: e.g., volunteer senior citizens or patients with chronic conditions
- Specify who is not vaccinated: e.g., children, newborns, or patients with cancer
- Specify whether the search is based on a certain age group: e.g., children, adults, or seniors
- Specify whether the search is based on a certain medical condition: e.g., diabetes, asthma, or HIV
- Specify whether the search is based on a certain location: e.g., specific cities, states, or countries
- Specify whether the search is based on a certain time period: e.g., recent years, specific months, or seasons

Step 2: Click on either of the “Go” buttons

Submit a Resource or Comment

To offer comments, report broken links, or submit suggestions for resources that should be included, please send an email to learn@MISUNIZE.org. Please put “AVRL Suggestions” in the subject line.

Search Library

- Searches for keyword or phrase found in resource title or description
- Exact phrase: use “+” sign (hepatitis + b)
- Exclude term: use “−” sign before word (− measles)
- Searches using any part of words (e.g. “flu” results would include “influenza”)
- Not case sensitive

About the Library

The Adult Vaccination Resources Library (AVRL) gathers adult immunization resources into one location, allowing healthcare providers and the general public to access adult immunization resources that can be used in a clinic setting or for individual education. Using simple keyword and other selected criteria, you can search the library to find the resources that meet your needs.

Tips on how to search the library
