## Where we are Today.....

### Immunization Assessment

- Paper form that the patient fills out
- Provided when a patient requests a service at a retail pharmacy location
- Follows the Adult Standards for recommendations
- Easy for patients to use and for the pharmacists to recognize immunization needs

**Walgreens**  
 Thank you for getting your flu shot today. Let's make sure you're also protected from other diseases based on your individual needs. You never outgrew your need for vaccines, and we'll help you find the CDC-recommended ones that are right for you.

## Where are we headed?

- Electronic Forms
  - Building the assessment into a streamlined workflow model
  - Incorporating it into our Electronic Health Record Process
- Incorporating the Assessment into Walgreens Assets
  - Walgreens.com
  - EHR
    - Will include a personalized recommendation tool
  - Bi-Directional Registry Functionality
    - Allows RPh to have a complete view of patients immunization history
    - Will allow for more accurate recommendations
