

Laura Hurley MD, MPH
Assistant Professor
General Internal Medicine
University of Colorado
Anschutz Medical Campus

Dr. Hurley received her medical degree from the University of New Mexico in 1997 and completed her internal medicine residency and chief residency at the University of Colorado. She worked as a hospitalist for two years, both in Colorado and New Mexico, before joining Denver Health's (an integrated urban safety net health system) medical staff in 2004 as a primary care physician. She completed a HRSA Faculty Development Fellowship in 2008 during which time she completed her Masters in Public Health. She is an assistant professor of medicine in the University of Colorado School of Medicine.

Dr. Hurley has nine years of experience in vaccine-related research including multiple CDC-studies regarding adult vaccine delivery and barriers to adult vaccination. She has presented her research to ACIP and has provided expert testimony about adult immunization delivery to the IOM. Her other research interests include cardiovascular health disparities, chronic opioid therapy, asthma and healthcare for undocumented individuals. She is a member of the American College of Physicians as well as the Society of General Internal Medicine
