In-person Meeting of Provider Workgroup

National Adult and Influenza Immunization Summit Meeting

May 14, 2014, Atlanta, Georgia

Option ONE Improve coordination and communication among different categories of providers	
Option TWO: Get providers to use evidence-base strategies such as standing orders and reminder/recall	
Option THREE Business Tools: Work on efforts and resources that make vaccine a more winning proposition for healthcare providers	
Option FOUR: Develop state-specific resources, especially useful to state and local health departments, and for the providers in their states	
Option FIVE: Engage with software companies that develop Electronic Health Records to make them more immunization-friendly	
Option SIX Engage top 7 payers to make the case for increasing reimbursement rates to be more in line with costs.	
Option SEVEN: Promote immunization at the quality improvement project of choice for those providers seeking Maintenance of Certification or for residents with QI project requirements.	

TOP PRIORITIES	Option THREE Business Tools: Work on efforts and resources that make vaccine a more winning proposition for healthcare providers
	Option SIX Engage top 7 payers to make the case for increasing reimbursement rates to be more in line with costs.
Next-Level Priorities	Option SEVEN: Promote immunization at the quality improvement project of choice for those providers seeking Maintenance of Certification or for residents with QI project requirements.
	Option FIVE: Engage with software companies that develop Electronic Health Records to make them more immunization-friendly
