

Amy Behrman MD
Associate Professor
University of Pennsylvania

In addition to her position with the University of Pennsylvania, Dr. Amy Behrman is an internist with a practice specializing in Occupational Medicine. She has directed the Occupational Health Service of a large academic medical center for more than 20 years with particular interests in occupational infections, vaccines, and vaccine-preventable diseases in adults. She is responsible for a broad range of adult workplace immunization initiatives, including an influenza vaccine program which has been mandatory for more than 19,000 employees annually since 2009.

She is an ACOEM Fellow and secretary of the ACOEM Medical Center Occupational Health Section.
