

**Alison Chi MPH
Program Director
American Immunization Registry Association**

Alison Chi has been with the American Immunization Registry Association since November 2011. She began her work with the immunization information systems community in 1997 as a provider outreach specialist for the Citywide Immunization Registry (CIR) at the New York City Department of Health and Mental Hygiene (NYC DOHMH). Ms. Chi's work for the CIR spanned a variety of capacities, including project manager for the development of their web-based provider application – which was the first such application to be deployed on the web by the NYC DOHMH. Most recently, she served as Director of Interoperability for the CIR.

Ms. Chi has been a co-author on several publications related to Meaningful Use and interoperability, including: "Meaningful Use Stage 2 Public Health Agency Readiness: Guidance and Recommendations, Stage 2 MU PH Reporting Requirements Task Force, April 2013;" "Meaningful Use and Public Health: An Immunization Information System Case Study, Journal of Healthcare Information Management, 25(4), Fall 2011," and "Case Study on Meaningful Use and Public Health: Immunization Information Systems in New York City, 2011 Public Health Informatics Conference, Atlanta, GA, August 2011."
