

Jane Huston MPH
Program Coordinator, HealthMap
Boston Children's Hospital
Harvard Medical School

Jane Huston joined HealthMap in 2011. In addition to writing and editing for the *Disease Daily*, she manages the HealthMap Vaccine Finder, a project that aims to simplify getting vaccinated.

Ms. Huston's professional interests include global health, infectious disease, and immunization. She received a Master's of Public Health in International Health from the Boston University School of Public Health.
