The Gerontological Society of America (GSA) is pleased to announce an exciting and unique opportunity to prepare healthcare professionals to become *immunization champions* in their organizations. The ICAMP Academy — a multidisciplinary leadership component of GSA's Immunization Champions, Advocates, and Mentors Program (ICAMP) — is set for October 26-27, 2015 in Rosemont, Illinois, near downtown Chicago. Through this program, participants are not instructed how to vaccinate, but rather how to improve organizational performance on immunization quality metrics and lead their organization's immunization efforts.

Healthcare professionals who are committed to improving adult health through vaccinations are invited to apply to this 1½-day multidisciplinary program. ICAMP Academy was developed by GSA's National Adult Vaccination Program (NAVP) for multidisciplinary providers including **physicians, nurses, pharmacists, physician assistants, and nurse practitioners**. *Coach air travel, hotel room, travel expenses, and program fees for participants are fully covered by ICAMP sponsors.*

We encourage you to refer and recommend this opportunity to individuals in your organization who actively support adult immunization. Applications will be reviewed by the NAVP workgroup. Participants will be chosen based upon their dedication to improving adult health through immunizations and their interest in quality healthcare delivery performance outcomes.

The ICAMP Academy's agenda offers participants insights on how to implement the National Vaccine Advisory Committee's Standards for Adult Immunization Practice through the use of practical tools and sharing of best practices. This innovative program was designed by experts who have achieved success in improving immunization rates in their practices and communities.

Applications to attend the ICAMP Academy are being accepted through August 30, 2015. **Apply now as space is limited [link to www.navp.org/icamp].** Please go to www.navp.org for additional information about NAVP's ICAMP Academy.
