

## VaxView 101: Finding vaccination coverage data on the CDC website

Stacie M. Greby, DVM, MPH

Epidemiologist

2017 National Adult and Influenza Immunization Summit

May 9, 2017

### VaxViews

- One online location for vaccination coverage information
  - Access to vaccination coverage estimates, downloadable datasets, publications and resources, and other relevant information (objectives, targets, and indicators)
  - Data displays
    - Software supports interactive data figures
      - Focus on awardee data
    - Not a data query system

# VaxViews

- [Immunization Managers home page](#)
- [Vaccines home page](#)
- [VaxView home page](#)

The screenshot displays two web pages. The top page is the 'AdultVaxView' section, featuring a header with the title and a navigation menu. Below the header, there are several content blocks: 'Adult Vaccination Coverage Data', 'For Specific Groups of People' (listing Travelers, Travel VFC Clinics, etc.), 'Immunization Managers', 'Immunization Partners', and 'News & Media'. The bottom page is the 'Immunization Managers' home page, which includes a navigation menu, 'Price Lists & Vaccine Codes', 'Program Contracts', 'Vaccine Safety', and 'Vaccine Education Center'. It also features a 'Spotlights' section, 'Quick Links', 'Awardee Immunization Websites' (with a map of the US), and 'Guidelines and Publications'.

## Next Steps

- Refining the existing pages
  - Consistency
  - Grammar
- Developing “quick views” to guide viewers through the interactive views
- Expanding the VaxViews
  - Interactive application
    - State profiles
  - Including the local data on the interactive views
  - Other immunization program data
- Posting on the ISD Awardee SharePoint Portal
  - Program Manager access

## Request

- Need feedback
  - What data do you need to be posted?
  - How can we make the data more accessible?
    - Limitations with current software
- Contact [VaxView@cdc.gov](mailto:VaxView@cdc.gov)
