

Allyn Bandell, PharmD
Senior Global Medical Affairs Leader
AstraZeneca/MedImmune

Ms. Bandell joined MedImmune in 2004 as a Medical Science Director, first supporting influenza and subsequently supporting influenza and RSV. Prior to joining AstraZeneca/MedImmune, she was a Medical Liaison with Roche Labs working with Tamiflu and Rocephin.

Ms. Bandell received a BS in Pharmacy from Northeastern University and a Doctor of Pharmacy from the Philadelphia College of Pharmacy and Science, completing a clinical residency and specialty residency in infectious disease at The Hospital of the University of Pennsylvania.

She plays a pivotal role in channeling LAIV/influenza scientific capabilities globally to make a positive impact on changing patients' lives.
