

Heidi DeGuzman
Program Director
University of California San Diego (San Diego Immunization Program)

Ms. DeGuzman has worked as a Program Director for University of California San Diego, a contract of County of San Diego Immunization Program, for 17 years. She has established and implemented efficient clinic workflow to all public health centers, community clinics, and private providers using the San Diego Immunization Registry. She leads overall Regionalized Registry development and implementation in the community and communicates the goals and agenda through a defined program plan. Ms. DeGuzman serves on the leadership teams of the Immunization Initiative and Regionalized Registry Tracking System. She has helped formulate and refine strategic goals, objectives, thrusts, and plans. In addition, she is also an active member of American Immunization Registry Association and part of different committees.

Ms. DeGuzman has a Bachelor of Science in Nursing.
