

**Deepthi Rajeev MS, MSc, PhD**  
**Lead, Adult Immunizations Project**  
**HealthInsight QIN-QIO**

Dr. Rajeev leads the Adult Immunizations project for the HealthInsight QIN-QIO serving Nevada, New Mexico, Oregon, and Utah.

She has a Ph.D. in Biomedical Informatics from the University of Utah, a Masters in Statistics from Brigham Young University, and a Masters in Computer Science from Osmania University, India. She was awarded a fellowship from the National Library of Medicine during her doctoral research. Her areas of interest include quality improvement, advance care planning, personal health records, and public health surveillance and reporting. She has worked on several projects that have involved modeling of healthcare data using standards and vocabularies, research design, workflow analysis, usability testing, and evaluation.

Dr. Rajeev has published in prominent medical informatics forums, including the *Journal of American Medical Informatics Association* and the *Proceedings of the American Medical Informatics Association*. She also serves on the Utah Commission on Aging Board and the Utah Department of Health Institutional Review Board. She is a member of the Steering Committee for The Utah Chapter of the Conversation Project.
