Would remove key benchmarks for influenza immunization from quality reporting programs prescribed in the rule based on series of criteria.

- **Influenza Immunization measure (NQF #1659) (IMM-2) from the Hospital Inpatient Quality Reporting (IQR) Program.**
  - **Factor 1:** Measure ‘topped out’ - statistically indistinguishable performance at the 75th and 90th percentile/measure’s truncated coefficient of variation is less than or equal to 0.10”
  - **Factor 8:** costs associated with the measure outweigh the benefits

- **Percent of Residents or Patients Who Were Assessed and Appropriately Given the Seasonal Influenza Vaccine (Short Stay) (NQF #0680) from the Long-Term Care Hospital QRP.**
  - **Factor 8:** costs associated with the measure outweigh the benefits

- Maintains **Influenza Vaccination Coverage Among Healthcare Personnel (NQF#0431)**
CMS-1688-P: FY19 Inpatient Rehabilitation Facility Prospective Payment Proposed Rule

- Maintains the Influenza Vaccination Coverage Among Healthcare Personnel (NQF#0431) for the FY2020 payment year.

- Would remove the Percent of Residents or Patients Who Were Assessed and Appropriately Given the Seasonal Influenza Vaccine (Short Stay) (NQF #0680) from the Inpatient Rehabilitation Facility Quality Reporting Program for fiscal year 2021.
  - **Factor 1:** Measure performance among Inpatient Rehabilitation Facilities (IRFs) is so high and unvarying that meaningful distinctions in improvements in performance can no longer be made.
Maintains the **Influenza Immunization IMM-2 (NQF #1659)** for the FY2020 payment year

Would remove **Influenza Vaccination Coverage Among Healthcare Personnel (NQF#0431)** from the Inpatient Psychiatric Facilities (IPF) Quality Reporting Program.

- **Factor 8:** Costs associated with this measure outweigh the benefit of its continued use in the program
