## II. PARTNER UPDATES

## III. WG UPDATES

# Immunization Measures

- **Goal:** incorporation into the Healthcare Effectiveness Data and Information Set (HEDIS), which is used to assess the quality of care in health plans
  - Awarded the National Committee for Quality Assurance (NCQA) for the development of adult composite measure
  - NCQA is assessing measures for the HEDIS Electronic Clinical Data Systems (ECDS) domain
    - ECDS is a new reporting method that leverages the use of electronic clinical data
    - Electronic clinical data includes administrative claims, electronic medical records, case management systems and registries

## Prenatal Immunization

- Measure testing is underway and plans have recently completed data collection
- 3 commercial plans and 2 Medicaid plans provided member-level immunizations data to NCQA for analysis

## Adult Immunization

- NCQA is finalizing its testing protocol and data model
- We are also recruiting commercial, Medicare and Medicaid health plans to participate in measure testing
- Plans will collect data in October 2017 and submit to NCQA in early November 2017
