

# The 2018 Vaccine Handbook App Now Available

Now all the information in The Vaccine Handbook can be at your fingertips...  
Download The Vaccine Handbook App from the Apple App Store for free access!

Updated  
**FREE**  
App

The new 2018 *TVH App* contains the seventh edition of **The Vaccine Handbook** and links to numerous valuable educational resources.

**The Vaccine Handbook: A Practical Guide for Clinicians ("The Purple Book")** is a uniquely comprehensive source of practical, up-to-date information for vaccine providers, educators, and advocates. It draws together the latest vaccine science and guidance into a concise, user-friendly, practical resource for the private office, public health clinic, academic medical center, hospital, and classroom.

**The Vaccine Handbook App** provides

- Vital information on every licensed vaccine in the United States;
- Rationale behind authoritative vaccine recommendations;
- Contingencies encountered in everyday practice;
- Advice on how to address concerns about vaccines;
- Background on vaccine policy and infrastructure;
- Standards and regulations;
- Office logistics, billing procedures, and much more.

**Free 2018 Vaccine Handbook App available from PIDS!**

*The Vaccine Handbook App* for Apple iPhones and iPads is available free of charge (book purchase is not required).

*TVH App* is fully searchable, allows for bookmarking, highlighting and annotation, and contains hyperlinks to valuable content from non-profit and governmental sources.

## About the Author

Gary S. Marshall, MD, a professor of pediatrics at the University of Louisville School of Medicine in Kentucky, serves as chief of the Division of Pediatric Infectious Diseases. In addition to being a busy clinician, he is nationally known for his work in the areas of vaccine research, advocacy, and education.

The Pediatric Infectious Disease Society (PIDS) has partnered with the publisher, Professional Communications, Inc., to distribute **The Vaccine Handbook App**.

From the Foreword . . .

*"The Purple Book is a tried and true, concise, user-friendly compendium of pretty much everything you need to know to engage in vaccine practice. TPB is the next best thing to having a personal vaccine expert on speed dial. . . or in the office next door. I have both, but I still use TPB on a regular basis (there's also a copy in our clinic and one in the fellow's welcome packet)."*

— KRIS A. BRYANT, MD  
President-Elect  
Pediatric Infectious Diseases Society
