

Preparedness Partnerships

Jennifer Heath

Education and Partnerships Unit Supervisor

PROTECTING, MAINTAINING AND IMPROVING THE HEALTH OF ALL MINNESOTANS

Recently Completed Activities

- Tabletop Exercises
 - 1) Pharmacy and Local Public Health Readiness
 - 2) Vaccine Preventable Disease Section Planning
 - 3) Anthrax “Protocol”

Upcoming Activities

- Pan flu vaccination capacity assessment
 - Using seasonal MIIC data
 - Share data with PHEP program and local health departments
 - Collaborative SWOT analysis
- Review of POD plans for vaccination readiness
 - Using recent tools for vaccine planning from the NAHS and CDC

Successes and Challenges

Successes:

- Collaborative projects highlight each other's areas of expertise.
- PHEP and ISD are more aligned, our programmatic challenges are similar

Challenges:

- Difficult to engage the MCM/SNS staff in regular VPD outbreaks because of their specificity to the SNS model
- Local health role has changed rapidly and significantly, but not always reflected in the current plans

Thank you!
