

Dear colleagues,

Immunisation for All Ages Webinar Series: Advocating for Life Course Immunisation

The Immunisation for All Ages initiative and this webinar series are both funded by Pfizer.

The current global public health crisis has highlighted how older age groups and those with underlying health conditions are disproportionately affected by inconsistent policies on prevention, chronic diseases and access to services.

Set against the backdrop of timely and much needed intersecting intergovernmental plans of action; namely The WHO Decade of Healthy Ageing (2020-2030)¹, the New Global Vaccine Action Plan (GVAP) and the WHO Immunisation Agenda 2030: A Global Strategy², delivering on a life course approach to immunisation has never been so important.

Please join members from the Immunisation for All Ages (IFAA) initiative, including the International Longevity Centre UK (ILC UK), International Pharmaceutical Federation (FIP) and the World Federation of Public Health Associations (WFPHA) in this webinar call to action.

Date	Thursday 12 th November 2020
Time	13:30 – 15:00 (Greenwich Mean Time) 08:30 – 10:00 (Eastern Standard Time)
