

Sepheen Byron, DrPH, MHS
Assistant Vice President, Performance Measurement
National Committee for Quality Assurance (NCQA)

Sepheen Byron is Assistant Vice President, Performance Measurement at the National Committee for Quality Assurance (NCQA). Dr. Byron oversees the development and use of quality measures for HEDIS® and other national evaluation programs. She has developed measures used by NCQA for accreditation, benchmarking and quality ratings, and she has advised entities on use of measures for value-based payment, accountability and quality improvement. Dr. Byron is a subject-matter expert for preventive services and pediatric health, including pediatric and adult vaccination measures. She currently serves as Principal Investigator for projects to develop measures for Lynch Syndrome screening, breast and cervical cancer follow-up, and lung cancer screening.

Prior to NCQA, Dr. Byron was a research analyst in the Center for Outcomes and Evidence at the Agency for Healthcare Research and Quality, where she assessed the effectiveness of health services.

Dr. Byron holds a Bachelor of Arts from the University of Virginia, Master of Health Science from the Johns Hopkins University Bloomberg School of Public Health, and Doctor of Public Health from the Gillings School of Global Public Health, University of North Carolina at Chapel Hill. She is a member of the boards of the Postpartum Wellness Foundation and Community Health Accreditation Partner.
