

Kandy Evans
Vaccination Manager
Phoenix Fire

Kandy Evans serves as the Vaccination Manager for Phoenix Fire, where she leads operations that support community vaccination initiatives and public-health readiness across the region. With extensive experience in program management, coordination, and emergency-response support, Kandy oversees the planning, logistics, and implementation of vaccination services that reach thousands of residents each year. She is recognized for her strong leadership, collaborative approach, and commitment to ensuring that critical health resources are accessible, efficient, and community-focused. Kandy's work has contributed significantly to strengthening local public-health infrastructure and empowering teams to deliver high-quality care in diverse settings.
