

Roberta Kelly, FNP-BC, CIC
Chief Nursing Officer & Senior Vice President

Roberta Kelly, FNP-BC, CIC oversees Sun River Health nursing, transitions of care, employee health, and organizational safety standards. She is board certified in infection control and epidemiology, providing leadership in infection prevention and control. She has participated in major growth and strategic planning for the organization, including the development of integrated health care services, vaccine programming, and health information technology enhancements. Ms. Kelly leads Sun River Health's vital work in nursing, including development of new nursing and clinical career ladders and training programs. She also oversees the organization's ongoing public health objectives delivering healthcare and preventive services to local communities.
