

**Judy Merritt**  
**Senior Technical Customer Success Manager**  
**STChealth**

Judy Merritt is a Senior Technical Customer Success Manager and brings over 30 years of expertise in immunization information systems and forecasting to her role at STChealth. She holds a Management Information Systems degree from the University of Oklahoma and began her career in 1992 as the Immunization Information System Coordinator for the Oklahoma State Department of Health, where she helped implement one of the nation's first statewide IIS and developed the immunization forecasting schedules used within the IIS.

After joining STChealth in 1999, Judy designed and developed the legacy forecaster for the company's IIS product. She is the Subject Matter Expert for STChealth's forecast engine which has evolved into a service utilized by thousands of providers which include major pharmacy partners and multiple IIS jurisdictions. She served as a member of the CDSi Project Expert Panel, where she contributed to establishing the CDSi logic specification to enable standardization among clinical decision support engines
