

Candice Robinson, MD, MPH

Director of Scientific Affairs and Public Health for US vaccines

GSK

Dr. Candice Robinson is a board-certified pediatrician with 15 years of experience in pediatrics, vaccines, and public health. Dr. Robinson received her medical degree from Wayne State University School of Medicine and an MPH from Vanderbilt University. She is passionate about disease prevention and issues that impact community health. In her current role, she serves as Director of Scientific Affairs and Public Health for US vaccines at GSK where she has a strategic role in the important challenge of increasing prioritization and implementation of immunization in the US.
