

Denton Shanks DO MPH

Health of the Public & Science Medical Director | AAFP

Innovation & Informatics Medical Director | The University of Kansas Health System

Denton is a Family Physician and the Medical Director of Innovation and Informatics within The University of Kansas Health System where he's championing AI & virtual care projects and driving the digital health strategy forward. He's an Associate Professor and works with the Inter-Professional Teaching Clinic with students and resident physicians. At the American Academy of Family Physicians, he is the Medical Director of the Health of the Public & Science. He is active in global health organizations that engage learners and help promote public health and primary care around the world.

He earned bachelor's degrees in Biochemistry, Spanish, and Chemistry at Kansas State University, a Master's in Public Health at Drexel University in Philadelphia, a Doctorate of Osteopathic Medicine at Arizona College of Osteopathic Medicine, and completed Family Medicine Residency at Unity Health Care in Washington D.C.
