

**Mark Winarsky, MPA**

**IT Project Manager, IZ Gateway Program Lead**

**Informatics and Data Analytics Branch in CDC's National Center for Immunization and Respiratory Diseases (NCIRD/ISD/IDAB).**

Mark Winarsky, MPA, is currently an IT Project Manager and the IZ Gateway Program Lead within the Informatics and Data Analytics Branch in CDC's National Center for Immunization and Respiratory Diseases (NCIRD/ISD/IDAB). Prior to his current role, Mark had more than twenty years of experience across various CDC Centers and Offices providing advanced project management and overall leadership including the organization of the first CDC Emergency Operations Center (EOC), working in the Joint Information Center assigned to the National Smallpox Vaccination Program, and taking primary leadership roles in the development, implementation and overall management of two major Grants Management Systems implemented across CDC. He led CDC's Public Health Information Network (PHIN) Requirements and Certification Programs' development and implementation, managed the PHIN Help Desk, and led the CDC's Agency-wide IT and Data Governance (ITDG) program. Mark has earned several recognition awards at both the Center and Agency levels for his excellence in leadership, customer service, innovation, implementation, and grants management. Prior to joining CDC, Mr. Winarsky worked for over 10 years in the healthcare industry focused on the implementation of various hospital registration, billing, medical records, and document imaging systems and software for healthcare systems across the country.
