

Best Practices

for Increasing Influenza Vaccination Levels among Healthcare Workers

Facility: Ridgeview Place Assisted Living
1009 10th Avenue NE
Sauk Rapids, MN 56379

Type of Facility: Assisted Living Housing Facility

Methods:

- Held in-service for all staff on influenza disease and vaccine
- Nurses were on site to administer vaccination to employees
- Management staff received vaccine first and encouraged their employees to do the same
- Participation in program was voluntary; no declination form required
- Employer covered costs of program

Results:

- Vaccination rate in 2007-08 season: 90%
