

The Summit Weekly Update

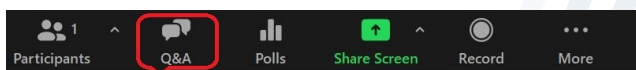

(Thursday May 27, 2021 / 3pm ET)

Audio broadcast available through your computer

- All participants will join the webinar in “listen only” mode. You should be able to hear through your computer audio – please make sure your speakers are not on mute. You should have received dial in information with our invitation email.

Want to ask a question?

- Type your answer into the “Q&A Box” in the lower area of your screen. Questions will be answered during the Q&A session, as time permits.

- Additional questions may be sent to info@izsummitpartners.org

Technical difficulties during the webinar?

- For assistance, please call 1-651-647-9009 or Zoom Technical Support 1-888-799-9666 ext. 2

4

Best Practice Learning Collaboratives

Over 5 Million Influenza and Pneumococcal Vaccines Administered Nationwide
AMGA Best Practices Learning Collaboratives
improve adult immunization rates
among high-performing health systems

Challenge
Hospitalizations (2017-2018)
• **450,000** related to pneumococcal pneumonia
• **959,000** resulting in **79,400** influenza-related deaths.
As many as **70% - 90%** of all influenza-related deaths were in adults 65 +.

Annual Healthcare Costs
• **\$5.8 billion** per year for influenza
• **\$1.9 billion** for pneumococcal disease

Approach: Scale Up and Spread
✓ **43** healthcare organizations
✓ **26** states

Results
5 million +
vaccinations administered or documented nationwide across all Collaborative groups

9

Active Patient Population

- Age 19–99 as of first day of reporting quarter;
 - Completed ≥ 1 ambulatory visit in the past 18 months, or during the reporting quarter, with any specialty;
- AND**
- [Have an assigned PCP **OR** ≥ 1 visit with a PCP in the past 18 months or during the reporting quarter.]

Measurement Tracks

| | Basic ¹ | Core ^{1,2} |
|----------------------|--------------------|---------------------|
| Influenza (19+) | Y1–Y4 | Y1–Y4 |
| Pneumococcal (66+) | Y1–Y4 | Y1–Y4 |
| Td or Tdap (19+) | | Y1–Y4 |
| Zoster (50+) | | Y1–Y4 |
| Bundle measure (66+) | | Y1–Y4 |

¹ Denominator consists of patients in primary care setting.
² Aligns with HEDIS Adult Immunization Status (AIS) Measure.

© 2021 Rise to Immunize™ / 11

11

Basic Track Measures

- Measure 1: Influenza vaccination for adults age ≥19 each flu season
- Measure 2: Pneumococcal vaccination for adults age ≥66
 - a: Annual Care Gap – vaccinated or newly documented in measurement year
 - b: Population Care Gap – vaccinated or documented ever, per CDC recommendation

Measures align with HEDIS Adult Immunization Status (AIS) Measure

12

Measurement Tracks

| | Basic ¹ | Core ^{1,2} |
|----------------------|--------------------|---------------------|
| Influenza (19+) | Y1–Y4 | Y1–Y4 |
| Pneumococcal (66+) | Y1–Y4 | Y1–Y4 |
| Td or Tdap (19+) | | Y1–Y4 |
| Zoster (50+) | | Y1–Y4 |
| Bundle measure (66+) | | Y1–Y4 |

¹ Denominator consists of patients in primary care setting.
² Aligns with HEDIS Adult Immunization Status (AIS) Measure.

© 2021 Rise to Immunize™ / 13

13

Core Track Measures

- Align with HEDIS Adult Immunization Status (AIS) Measure
- The percentage of patients 19 years of age and older who are up to date on recommended routine vaccines for influenza, tetanus and diphtheria (Td) or tetanus, diphtheria and acellular pertussis (Tdap), zoster, and pneumococcal.

© 2021 Rise to Immunize™ / 14

14

The benefit of a bundle measure is that it more closely aligns with the patient’s perspective of care and promotes both a holistic approach to prevention and a system-wide approach to improvement of care.

(Nolan T, Berwick D. *All-or-None Measurement Raises the Bar on Performance*, JAMA, March 8, 2006)

15

Core Track Measures

1. Measure 1: Influenza vaccination for adults age 19 and older each flu season
2. Measure 2: Pneumococcal vaccination for adults age 66 years and older
3. Measure 3: Td or Tdap vaccination for adults age 19 and older
4. Measure 4: Zoster vaccination for adults age 50 and older
5. Measure 5: Bundle – adults age 66 years and older who have received, or are up to date on, all 4 required vaccinations: influenza, pneumococcal, Tdap, and zoster
6. Bonus Measure: Composite – assesses the percentage of the total recommended number of immunizations (AMGA to calculate)
