

Date of meeting: October 2, 2014

Topic/Focus: Implementation Science and Its Application to Adult Immunization

- Over-the-phone conference call with two presentations

Speakers/Facilitators:

- Brian Mittman (Veterans Administration)
- Oscar Fleming (National Implementation Research Network)

Meeting Summary:

The discussion considered how implementation science might provide insights on increasing adult immunization rates.

Resources Shared:

Slide set

- Implementation Science: Overview and Proposed Role in Increasing Immunization Rates (*Mittman*)

Documents

- Implementation Science In Health Care (*Mittman*)
- Overview of the VA Quality Enhancement Research Initiative (QUERI) and QUERI theme articles: QUERI Series (*Stetler*)
- National Institutes of Health Approaches to Dissemination and Implementation Science: Current and Future Directions (*Glasgow*)
- Adopting Immunization Recommendations: A New Dissemination Model (*Freed*)
