

Southern Hemisphere Influenza Surveillance – WHO Global Influenza Surveillance Reporting System
 (received from Stacy Davlin, CDC – 8/5/2016)

- **Temperate South America:** Increasing activity in Chile, Paraguay [A(H1N1)pdm09 and B] and Uruguay [A(H1N1)pdm09]
- **Temperate Southern Africa:** Increasing activity [mostly B virus, followed by A(H3N2)]
- **Tropical South America:** Activity decreased in Colombia, Bolivia, Ecuador, Peru and Brazil [mostly A(H1N1)pdm09]. Activity in Brazil started earlier this year compared to previous seasons.
