Community Health Centers

America's Voice for Community Health Care

America's Voice for Community Health Care

The NACHC Mission

The National Association of Community Health Centers (NACHC) was founded in 1971 to promote the provision of high quality, comprehensive and affordable health care that is coordinated, culturally and linguistically competent, and community directed for all medically underserved populations.

NACHC will develop a White Paper that outlines current policy barriers and strategies impacting adult immunization rates among health center patients

- Purchasing and stocking adult immunizations
- Reimbursement rules under Medicaid, Medicare, and other payers
- Section 330 policies
- FTCA, Vaccines for Children, 340B policies
- Pharmacy policies

- Environmental scan of current practices and policy considerations
- Interviews with key informants

Key questions:

- **What are your biggest problems surrounding adult immunizations?**
- **How would you solve them?**

- Compile environmental scan and informant interview material
- Draft White Paper and present it at the 2019 NAIIS Summit (May 14th-16th) for input
