

CMS Quality Payment Program Proposed Rules:

- Shared Savings Program [Accountable Care Organizations \(ACOs\)](#) would be responsible for reporting the *Adult Immunization Status (AIS)* measure (ACO-47) starting with quality reporting for performance year 2020. Consistent with our existing policy regarding the scoring of newly introduced quality measures, this measure would be pay-for-reporting for all ACOs for 2 years (performance years 2020 and performance year 2021). The measure would then phase into pay-for-performance beginning in performance year 2022 (§ 425.502(a)(4)).
- Proposed measures for REMOVAL in 2022 MIPS Payment Year and Future Years (Appendix 1, Table Group C)
 - Preventive Care and Screening: Influenza Immunization
 - Pneumococcal Vaccination Status for Older Adults
 - Zoster (Shingles) Vaccination
- Changes to existing measures proposed for the 2022 MIPS Payment Year and Future Years (Appendix 1, Table Group D)
 - D. 34 Childhood Immunization Status
 - D. 58 Immunizations for Adolescents
- ADDITION of the *AIS* measure is proposed in the following specialty sets for 2022 and beyond (Appendix 1, Table Group B):

<p>Allergy/Immunology</p> <p>Family Medicine</p> <ul style="list-style-type: none"> ○ NOTE: in addition to <i>Immunizations for Adolescents</i>, which is a currently reportable measure <p>Internal Medicine</p> <p>Obstetrics/Gynecology</p> <p>Otolaryngology</p> <p>Preventive Medicine</p>	<p>Nephrology</p> <p>General Surgery</p> <p>Oncology/Hematology</p> <p>Infectious Disease</p> <p>Rheumatology</p> <p>Geriatrics</p> <p>Skilled Nursing Facility</p> <p>Endocrinology</p>
--	--

- REMOVAL of the following measures from the respective specialty sets

<p>Allergy/Immunology</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults <p>Family Medicine</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults ▪ Zoster (Shingles) Vaccination <p>Internal Medicine</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults ▪ Zoster (Shingles) Vaccination 	<p>Nephrology</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults ▪ Zoster (Shingles) Vaccination <p>Oncology/Hematology</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults ▪ Zoster (Shingles) Vaccination <p>Infectious Disease</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults
--	---

<p>Obstetrics/Gynecology</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults <p>Otolaryngology</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults <p>Pediatrics</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ <i>NOTE: Childhood Immunization Status & Immunizations for Adolescents: are current measures in the Pediatrics set</i> <p>Preventive Medicine</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults ▪ Zoster (Shingles) Vaccination 	<ul style="list-style-type: none"> ▪ Zoster (Shingles) Vaccination <p>Rheumatology</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults <p>Geriatrics</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Pneumococcal Vaccination Status for Older Adults ▪ Zoster (Shingles) Vaccination <p>Skilled Nursing Facility</p> <ul style="list-style-type: none"> ▪ Preventive Care and Screening: Influenza Immunization ▪ Zoster (Shingles) Vaccination

2020 Child and Adult Core Set Review Workgroup Final Report:

- CMS/CMCS will use the Workgroup’s recommendations, as well as public comments, to inform decisions about how and whether to modify the 2020 Core Sets. CMCS will release the 2020 Core Sets through a CMCS Informational Bulletin by December 31, 2019.
- The Medicaid WG **did not recommend** the removal of the *Flu Vaccinations for Adults Ages 18 to 64 (FVA-AD)* and it also **did not recommend** the addition of the following measures to the 2020 Core Set:
 - *Prenatal Immunization Status*
 - *Flu Vaccinations for Adults Age 65 and Older*
 - *Adult Immunization Status*
 - *Influenza Immunization*
- Measures in the current 2019 Core Sets:
 - Child Core Set: *Childhood Immunization Status (CIS-CH)* and *Immunizations for Adolescents (IMA-CH)*
 - Adult Core Set: *Flu Vaccinations for Adults Ages 18 to 64 (FVA-AD)*
- NAIIS partners (AVAC and BIO) also provided public comments
