Summit Adult Vaccine Recommendations Review (SAVRR) Council Meeting

November 10, 2026

Co-chairs: Bob Hopkins, MD & Jane R. Zucker, MD, MSc, FIDSA
Discussion Facilitator: L.J Tan, MS, PhD, Co-Chair, NAIIS

Agenda

- Welcome & opening statement
- AIM's Vaccine Implementation Project- Katelyn Wells
- AIRA update on clinical decision support process- Rebecca Coyle
- Update on one-on-one meetings with SAVRR member organizations- L.J Tan, Immunize.org
- Discuss expanding the Council's scope beyond seasonal respiratory vaccines- Bob Hopkins, NFID
- Other agenda items from membership
- Next meeting: December 8 from 1:00 – 2:30 pm ET

Opening statement

SAVRR Council Scope and Objectives

SAVRR stands for the Summit Adult Vaccination Recommendations Review; accordingly, this group is the SAVRR Council.

Because the Summit covers influenza vaccination across the lifespan, the Council will address influenza recommendations across all ages in addition to adult vaccination recommendations.

Objective 1: Provide stakeholder feedback on recommendations

- The Council will serve as a forum—similar to the function that was previously provided by the liaisons to the ACIP—to provide stakeholder feedback to recommendation-developing bodies (currently the medical societies and professional organization who are members of SAVRR) during development and, as needed, after publication.

Objective 2: Support implementation of evidence-based recommendations

- The Council will provide guidance to support effective clinical implementation of evidence-based vaccine recommendations from professional medical societies and ACIP, as appropriate.
- This work includes identifying and clarifying differences among recommendations; highlighting gaps and opportunities for alignment; identifying interventions for the Summit's working groups and its partners; and helping to disseminate clear, practical guidance through the National Adult and Influenza Immunization Summit (NAIIS) communication channels.

AIM’s Vaccine Implementation Project

Katelyn Wells, AIM

Update on clinical decision support process

Rebecca Coyle, AIRA

Update on one-on-one meetings with SAVRR member organizations

L.J Tan, Immunize.org

Main take-aways

- SAVRR Council members should have opportunity to provide feedback on recommendations before they are finalized
  - For fall recommendations, time constraints are evident
- SAVRR co-chairs to be invited to monthly meetings between medical professional organizations making fall seasonal recommendations
- SAVRR to consider best approach for consolidating SAVRR Council members' responses to embargoed recommendations, to inform the final recommendations
  - Cooperation with AMA/VIP?
- Council members are a source of information; should use them to solicit feedback from their members
- SAVRR to continue to work with payer associations to share information
- Collaboration around future threats, such as VICP, AAP lawsuit, HHS RFI. The Council can share resources.

Discussion on expanding the Council's scope beyond seasonal respiratory vaccines

Bob Hopkins, NFID
